WHAT IS CASHBACK?

Through the platform, you have access to cashback savings which means that rather than getting money off at the checkout, you get money back. For example, if you order a £50 digital voucher for a retailer that offers 3% cashback, you pay £50 for the voucher and get £1.50 back.

WHERE DOES MY CASHBACK GO?

All of the cashback you earn through the platform is stored in your account. When you log into the app or website, you'll see your current cashback balance on the screen and be able to get a more detailed breakdown of your cashback and transaction history on the **Cashback** page.

Cleared cashback balance –
this is the amount of cashback currently in your account.

Cashback processing balance –
this is the amount of cashback currently being processed.

Cashback cleared to date –
this is the total amount of cashback you've earned through the platform so far.

HOW DO I USE MY CASHBACK?

The cashback you earn through the platform is yours to spend or save.

- 1. Save it**
Let the money accumulate over time and treat your cashback pot as an online savings account to be dipped into for a special occasion or treat.
- 2. Transfer it to a bank account**
Once you've earned a minimum of £5 cashback, transfer an amount of your choice to your bank account to enjoy.
- 3. Transfer it to a reloadable gift card**
Choose to reinvest your savings by transferring an amount of your choice to one of your reloadable gift cards once you've earned a minimum of £5 cashback.
